
2023 ANNUAL IMPACT REPORT

CAPOEIRA: STRONGER TOGETHER

Capoeira was developed by African warriors enslaved in Brazil and used to fight for their freedom. CapoeiraDC's mission is to promote the Afro-Brazilian martial art of capoeira in the DC community. Our vision is to empower the DC community with Capoeira's art form of liberation for generations to come.

While the year brought many unique challenges, CapoeiraDC forged ahead stronger than ever – growing our membership and introducing new programs and events to our members and the broader DC community!

MEMBER IMPACT

Khari began as a supportive parent to his three children who have been part of our youth program for 8+ years. In the last year, Khari took capoeira to be his own passion.

"When I first came, I was just a consumer. It was a place for me to bring my kids and have them participate in an activity they liked. But the longer we stayed the more we started to appreciate the community for what it is and what it does for us and for what everybody does for each other."

"Once my kids decided they liked it, I was here all the time and I just fell in love with the community and the movement. There is also certainly a physical aspect to it. I have found that in my life the way I was moving my body wasn't serving me so capoeira gives me a different type of movement that I think will help me age gracefully."

Khari's favorite thing about The Capoeira Spot is "the community and the way that everyone relates to everyone. People are kind to one another, it's more than just a place to train, it's a place for everyone to commune with one another."

2024 GOALS

We aim to continue growing our youth and adult programs at their current rates while maintaining the high-quality, high-impact programming we are known for. In addition, we are undertaking strategic initiatives to further enhance the experience of our members, educate and inspire the DC public about Capoeira, and build the capacity and sustainability of our organization.

GOAL

Cultivate our members' development and innovation in Capoeira

Inspire and educate the DC public about the Capoeira's impact

Transition teachers from volunteer to paid staff

PURPOSE

We want our members to have more opportunities to deepen their knowledge of Capoeira's history and gain exposure to other global perspectives on the art form, so that they can develop as leaders and innovators in Capoeira and ultimately inspire and pass on the benefits of Capoeira to future generations.

We find that many people are still unaware of what Capoeira is and why it matters today. In 2023, with our production *Evolução*, we received feedback from people unfamiliar with Capoeira how much they enjoyed the show and how it educated them about Capoeira and inspired them.

We began as a volunteer venture, and our members' commitment to our community has made our work possible. However, reliance on volunteerism is not sustainable for an organization of our size and scope. We require 8+ years for students to become teachers. To sustain our quality, impact, and growth, we must pay our teachers.

STRATEGY

Build partnerships with mission-aligned Capoeira schools across the country and globe. Organize group field trips to other schools' events. Invite guest mestres (masters) to our studio for special events and workshops.

Develop a performance program that includes both our youth and adult members and culminates each year in a production that showcases the history, culture, and stories of Capoeira that can inspire today's families and youth.

Increase our funding from individual donations and corporate sponsorships by launching fundraising campaigns aligned with our events for the DC public. Continue to apply for private and government grants.
